Release Date 12.12.2024*

Welcome to the latest release for New Movie Magic Scheduling. Special thanks to all our valued EP clients for your feedback and suggestions.

*Release date and features are subject to change.

What's New?

Product Feature Name Changes

- "Stripboard" is now "Board".
- "Segment" is now "Sub-board".

Split Screen Enhancements

- Utilize side-by-side split screen views and drag-and-drop capabilities.
- Add elements to your strips more quickly, manage your board, and build your reports efficiently.

Multi-Episode Schedules

- Ensure precise and intuitive scheduling for multiple episodes within the same schedule.
- Use new episodic logic and sub-board features for block shooting and cross-boarding.

Multi-Unit Schedules

- Create unlimited schedules for all your production units.
- Manage units all shooting on the same day with ease using the new sub-board.

Conflicts

- Handle double bookings or scheduling conflicts across multiple units and adjust schedules accordingly.

Merge Elements

- Merge elements and customize calendar view by element or category.

Customizable Calendar View

- Add elements to your strips more quickly, manage your board, and build your reports efficiently.
 - Double-check background actor requirements for upcoming weeks and ensure casting is set.
 - Adjust schedules dynamically based on vehicle availability.
 - Fully customize an interactive calendar, allowing you to choose exactly what you see and make changes on the fly.

Customizable Board and Report Layout

- Customize banner and strip background colors
